**General Notes:**

1. This catalogue is for Dealer use only. Do not upload on a website or print material with the current information without written permission
2. The compatibility of some parts may vary between different markets.
3. All parts ending with ' A ' (i.e. SBDD451A) are developed for use in Automatic & tiptronic transmission models (DSG...etc)
4. Manual versions (non 'A' versions) can only be installed in manual models.
5. In some early models the throttle connector is located in the engine bay
6. For Mercedes AMG , BMW M Series and highly tuned models we suggest the use of the Auto version
7. Switches are not universal. They will only work with the specific Sprint Booster in the box. Do not use the same switch in different Sprint Booster part numbers
